Spring into Training

With a land-to-water workshop

Junior ~Apprentice ~ Working ~ Courier

Don't wait until you are at the water's edge to begin training for water work. This hands-on, land-based workshop for beginner and advanced level dogs will help you get a jump-start on water training & brush up on basic skills.

Exercises at all levels can be broken down to basic skills. We will review the components of each exercise to help you give your dog a good understanding of what is required before you take your training to the water.

Our Novice workshop is for beginning dogs at the Junior or Apprentice level.

Our Intermediate/Advanced workshop is for dogs & handlers who have completed novice training and are aiming for a Working or Courier title.

Participants will work in small groups with others at their training level.

Registration Deadline: April 24, 2024

Novice Level - Members \$40, Non-members \$50

Intermediate Level - Members \$20, Non-members \$25
